- Web Development
- Programming
- Cyber Security Fundamentals
- Database Management
- Leadership
- Research & Documentation
- Teaching & Communication
- UI/UX & Digital Content Design

LANGUAGES

- English
- Bangla
- Hindi

PROFILE

I am a Software Engineering student with a strong interest in Cyber Security, Artificial Intelligence, and Software Development. Alongside my studies, I enjoy teaching and helping students learn through private tutoring. I also create programming-related videos to share knowledge and make technology more accessible. I am passionate about continuous learning, problem-solving, and skill development. My goal is to use technology and education to make a positive impact.

WORK EXPERIENCE

British Marketplace 2025 - 2026
